Three generations dying in one house within three days is rather a rare occurrence, but in Deloit last week such a case was seen. Mrs. S. B. Williams died Tuesday from the effects of a tumor. Three days after that her daughter, Mrs. S. C. Enos died shortly after child birth. The babe lived but a few minutes and so in one house the babe, its mother and its grandmother were lying cold in death.

Messrs. "We, Us & Co." at the opera house to-morrow evening, is undoubtedly the best and most humorous of all the musical comedies. The building was well filled, many persons of other denominations witnessing the ceremony with which their friends were taken into the church. The revival meetings which have been held for over a month will be continued this week without change.

Yesterday morning about ten o'clock Miss Jessie Hommes, daughter of Mr. and Mrs. Thomas Hommes, was stepping out of a buggy she lost her balance and fell. In falling she struck the horse-block with her right arm and her whole weight coming upon it broke both bones at the wrist. As the accident happened at her home in the fifth ward, she was taken to the house and a physician called to attend her injuries. The fracture is in a bad place and it will be some time before any use can be made of the arm.

Refreshments being served the party and at a reasonable hour the party departed. It was a merry party, and one which Mrs. Bender will remember with pleasure.

Dr. James Mills has fitted up a handsome and convenient suite of rooms in the Bennett block, West Milwaukee street, over the store of Richardson & Becker, and is now ready to receive calls from all those desiring his professional services. Dr. Mills studied with Dr. Henry Palmer in the city, graduated at Chicago, served as assistant in the surgeon's office of the Chicago and Northwestern railway company, after which he was appointed assistant physician at the Northern insane hospital at Elgin, Illinois. Holding this position for

upwards of two years, he resigned and went to Europe, and took a course at the Edinburgh university and the hospitals of London. Dr. Mills, although a young man, has had an extensive practice in the above fields, and his recent tour through the leading hospitals of Europe and this country, together with his thorough investigations, give him many advantages in the treatment of diseases. The doctor has a very pleasant suite of rooms at the above place, and his friends, of whom he has many in this city and vicinity, are cordially invited to call.

He formerly resided in this city, being a son of the late A. W. Harris, who formerly kept a barber shop here. In 1893 Charles L. went south, soon after entering the ministry, and is now the pastor of a flourishing Congregational church in Jackson. Last evening he attended the services at the Congregational church, where he used to attend Sunday school, and spoke a few words of his work in the south. Mr. Harris received his education in the public schools of Janesville, and although being absent twenty-three years, he remembers many of our people, and has a kind word to say for many who were his classmates in school. A staunch republican, he reports that the condition of the people in the south to be steadily improving, as the facilities for education are increased.

OBITUARY.

MRS. ANN E. HUTCHINSON.

Mrs. Ann E. Hutchinson, wife of Mr. Myron B. Hutchinson, and mother of Mr. Fred F. Prentice, died at her home 68 Milwaukee avenue, at six o'clock this morning, aged 69 years. Deceased had resided in this city many years, and drew around her a large circle of intimate friends, who will extend their heartfelt sympathy to the bereaved family. Besides her husband, she leaves two children by a former husband, Mr. Fred F. Prentice, of the firm of Prentice & Evenson, druggists, this city, and Mrs. E. W. Terry, of Nebraska City, Nebraska. The funeral will be held on Wednesday at 10 o'clock in the forenoon. The remains will be taken to Magnolia for interment.

MR. DANIEL SCHOFIELD.

This afternoon as we go to press the remains of Mr. Daniel Schofield are being taken to their last resting place. He died Saturday morning at his home on Franklin street fourth ward, of an affection of the liver, which had kept him in bed for the past two months. Deceased was seventy years and nine months old, and came to this city in 1852 from New York state. He leaves a widow and four children: Mrs. N. Dearborn, of this city; Mrs. O. J. Dearborn, of Indianapolis; Mrs. D. Parker, of California; and Mr. P. D. Schofield, of West Union, Iowa.

I sent George Sonner, who has been afflicted with neuralgia five years, a bottle of Althophors. One dose took effect almost immediately, and in the morning he felt as clear as a bell. It has done wonders. A. S. Cully, druggist, Wauke, O.

MATRIMONIAL.

GOLFNEY—ARNOLD.

On Thursday, October 21st, wedding bells were heard at Mr. John Arnold's home in the town of Fulton, on the occasion of the marriage of his daughter Jennie, to Mr. William Golfney, of Lima. The wedding was at a private, but very pleasant character, none being present but relatives of the contracting parties. The bride is one of Fulton's fairest and most esteemed daughters, and the bridegroom is a well to do farmer, and highly respected in the town where he resides. The ceremony was performed by Rev. T. S. Oudams, of the Congregational Church, Shopiere. The well wishes of a host of friends follow them to their pleasant home in Lima where they have taken up their residence.

Maggie's Landing.

Unlike most plays written now-a-days this one has a good plot, which holds the interest with the various actors amuse the audience with their by-plays. The two stars, Miss Frances Bishop as Little Maggie, and Mr. Alfred McDowell as Asa Beck, an enterprising and voluble land agent, have plenty of work, which is done in a manner that could not be surpassed by any couple we know of on the stage. Their singing and dancing is a feature that alone would make the entertainment an unequalled success, and they were both—Mr. Bishop in particular—the subjects of the most flattering remarks in the audience. Mr. Looker, of "Bunch of Keys" fame, deserves special mention, while the entire cast was far above the average. The ladies were carried away with delight and admiration of the petite and vivacious little star. Of her we have only to repeat what we said last year: She has a wonderful future, and before many years she will out-trival the famous Lotta, and she is no superior to all others of that class. She has a very sweet voice which she uses with skill. Mr. McDowell is of the John T. Raymond stripe, and being a young man of great talent, he is also bound to ascend to the top round of the ladder of histrionic fame. The company has been selected with great care and discretion. "Maggie's Landing" is bound to be one of the greatest hits of the day.—*Times Herald.* At Lappin's music hall on Wednesday and Thursday evenings, October 23rd and 25th. Reserved seats now on sale at Warren Collins' music store.

THE BALSAMIC HEALING AND SOOTHING PROPERTIES OF SAMARITAN NERVINE.

THE BALSAMIC HEALING AND SOOTHING PROPERTIES OF SAMARITAN NERVINE are marvellous. "My brother aged 19, had flu from his infancy, Samaritan Nervine cured him."—W. C. Holmes & Son, Chicago, Ill. \$1.50 at Prentice & Evenson's opposite post office.

The Potato Rot.

Mr. G. D. Spencer, of Castleton, Vermont, under date of October 20th, writes the American Cultivator concerning his investigations of the potato rot. "That the potato rot," says Mr. Spencer, "is nothing badly this fall is a fact beyond a dispute. The next important matter is to learn the cause. In your last issue it is stated that the keeping qualities of apples are in a large part dependent on the soil where they are grown. We may say the same of potatoes, which, like backwheat, to be perfect in their growth must have potash. When this material is not supplied, potatoes cannot be grown to perfection. Imperfect specimens are inclined to rot.

In this connection I have made examinations of crops in this town, and find almost without exception that potatoes planted on slate soil do not average more than one rotten potato to a hill. One farmer dug 150 bushels per acre of marketable potatoes, with comparatively no rot. These were raised on slate soils. On the other hand, forty to sixty per cent of the potatoes are rotten when raised on sand, loam and gravel muck dug from one hill a peck of potatoes with only one sound tuber. In slate there is five per cent of rot. In growing the tuber takes no more than it needs, but a certain amount it must have. Rob the potato of its potash and it will rob the grower of his profits. If soil is destitute of elements found in slate for a growth of this crop it can be remedied by placing in each hill a handful of ground slate such as is ground in our slate mills here for many uses. For more than ten years I have carefully watched the effect of slate on potatoes, and am satisfied it is as necessary for growing a good crop of potatoes as are sun and water.

ENTERTAINMENT.

What Has Been Accomplished by a Live Real Estate Firm in Two Months.

In the past two months' Wheeler & Stevens, of this city, have sold through their real estate exchange, 887 acres of land in Rock county, for the sum of \$50,350; 200 acres of land in Dane county for the sum of \$12,000; and 144 acres of land in Walworth county for the sum of \$10,000. In short they have sold in two months, for their patrons, 1,247 acres of farming land in this vicinity, for which there has been realized the handsome sum of \$75,350. In addition to these sales, they have sold during the same time, 200 acres in Dakota for \$500; 100 acres in Minnesota for \$3,000; and residence property in this city for \$3,300; making for the total amount of sales made by them since about the middle of August the sum of \$85,150.

These sales are of such magnitude that a detailed statement of the average disposed of, prices realized, and parties for whom the sales were made can not fail to interest the public, as they show not only a success upon the part of the gentleman making these sales that is highly gratifying to their many friends but as well a demand for property in this vicinity and a healthy value of real estate that indicates a substantial and steady growth of prosperity for this section of our state. During this brief period of two months—they have sold in Dane county—the farm of Lorenzo Coon, of 80 acres in the town of Albion for \$5,000; and the farm of R. S. Peckham, 120 acres, in the same town, for \$7,000. In Walworth county they have sold the 164 acre farm of the estate of the late Peter Smith, near Delavan, for \$10,000. In Dakota they have sold 200 acres of land for J. W. Norton, of this city, for \$500; and in Minnesota they have sold for Jas. Caldwell, of this county, 100 acres in Dodge county for \$3,000. Their sales in this city were two residences only sold for J. W. Ward for \$1,200; and one for Stephen Spalding for \$2,100. The sales made by them of farming lands in this county during the time mentioned are as follows: for estate of J. B. Carle, 252 acres in town of Janesville, \$18,000; for James Menzies, 150 acres in town of Harmony, \$8,250; for Margaret Turner, 100 acres in the same town, \$6,250; for Geo.
